

WIND LOAD LISTINGS

Cookson coiling and insulated doors can be configured to withstand the full range of specific wind load requirements including missile impact ratings. Specified wind load designs have been performance validated through third party testing to one or more of the following performance criteria:

- ANSI/DASMA-108
- ASTM E 330
- Miami-Dade County test protocols TAS 201, TAS 202 and TAS 203
- Florida Building Code (FBC)
- Texas Department of Insurance (TDI)
- Signed and Sealed Calculations

Miami-Dade County NOAs

Notice of Approval	Florida Building Code Edition	Product	Size	Impact Speed	Large & Small Missile Impact	PSF +	PSF -	High Velocity Hurricane Zone	Expiration Date
12-1019.26	2010	Rolling Service Door	Up to 25'-5" Wide	50 FPS	X	60	60	X	May 30, 2018
